

CivicEye's Solution for Prosecutors

Unique features that will empower your everyday work.

-  **CJIS-certified**
-  **Cloud-hosted System**
-  **Open API Capabilities**

At CivicEye, we understand the critical nature of efficient, secure, and user-friendly case and evidence management for prosecutors and their teams. Our solutions are designed to empower prosecutors with innovative technology that improves processes, enhances collaboration, and ensures secure handling of sensitive information.

CivicEye is more than just a software provider; we are your partner in ensuring justice is served efficiently and effectively. Our commitment to innovation, security, and user-centric design sets us apart, making CivicEye the go-to choice for prosecutors seeking to modernize their case and evidence management systems. Join the growing network of prosecutors who trust CivicEye to enhance their operational efficiency, secure sensitive information, and deliver justice.

Our case management solution is in accordance with the National District Attorneys Association's (NDAA) Functional Requirements for Prosecutor Management Systems.

The CivicEye Difference

	 CivicEye	Other Case/DEMS Providers
Tech Support	100% Domestic U.S. Support, available 24/7 and a designated Client Success Manager	Limited access to support
Data Entry	Auto-populating fields that minimize manual data entry and human error	Repetitive, manual data entry
Agency-Specific Support	Configurable forms and templates for your prosecution team's needs	One-size-fits-all solution
Integration Support	Scalable environment for integrations; add more storage space/integration options as needed	Limited or complex integration options
Collaboration with 3rd Parties	Share user-specific, secure login portals for 3rd parties like law enforcement and defense	Limited, unreliable access for third parties
